& MAINTENANCE**

a history of excellence

COMPANY PROFILE

Established in 1984, K&H Medical has secured a reputation as one of the leading companies in the medical service industry. Using the most advanced installation and maintenance technology, we currently install over 25% of the UK's total medical gas pipeline projects, making us one of the most experienced providers in the field.

The founder member of K&H Medical Ltd, along with those who join our team are highly qualified professionals with many years of specialised experience within the industry.

our services include:

- gas distribution systems
- vacuum systems
- medical and surgical air systems
- manifolds
- alarm systems
- gas scavenging systems
- patient environment installations
- electrical installations
- laboratory pipelines
- authorised persons service (MGPS)
- QC testing (MGPS)
- maintenance

“ K&H Medical currently install approximately 25 per cent of the UK's total medical gas pipeline projects ”

strategic design & planning

K&H Medical maintains a proven track record of co-ordinating bespoke projects with demanding schedules. We plan, design and then deliver a unique solution tailored to your exact requirements. Attention to detail in the designing and planning stages enables our team to ensure that our proposal will be achieved within your budget.

Our in-house CAD team can supply a full HTM02 design incorporating all the necessary working drawings. This will ensure a smooth turnkey installation.

case study: Central Middlesex Hospital, PFI

New theatres: K&H Medical installed all the medical gases, £450k
Bouygues were the main contractors

unique tailored solutions

MEDICAL INSTALLATIONS

K&H Medical have an in-depth understanding of the issues facing healthcare professionals and their industry. When you appoint K&H Medical you are safe in the knowledge that our dedicated project team will deliver an integrated service with minimal disruption to your service. Because every situation is unique, we customise every single project we undertake to suit you.

case study: St. Bartholomew's Hospital

K&H Medical installed a new 76mm oxygen ring main, £150k
Skanska were the main contractors

a service you can trust

INDUSTRIAL INSTALLATIONS

Our commitment to quality has instilled confidence right across the pharmaceutical and industrial research industries on a national scale. Our partnerships within these industries have provided us with a very strong foundation as we continue to expand, thriving on repeat business from our impressive portfolio of clients.

Laboratory Department**
Total laboratory refurbishment
£150k

“All our staff are qualified tradesmen, trained in contract management, who are committed to offering quality at a competitive price”

the highest standards

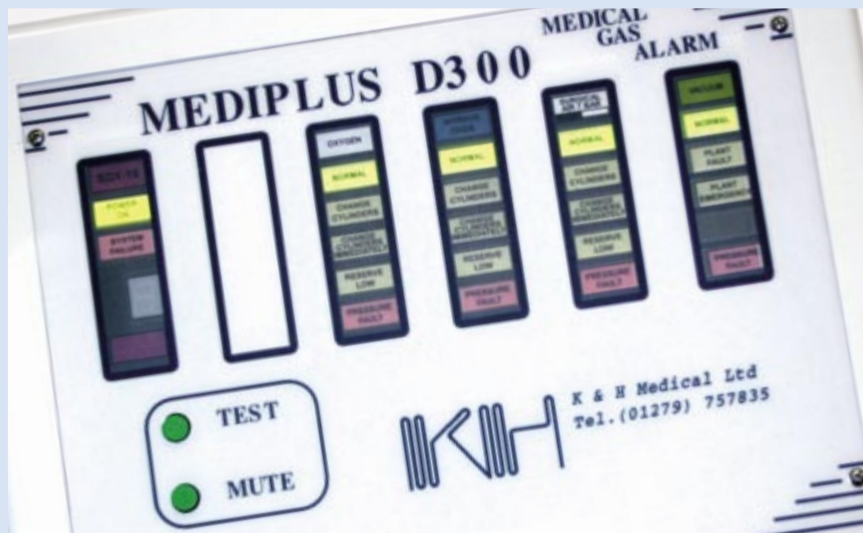

ELECTRICAL INSTALLATIONS

As well as adhering to BSI and UKAS standards, K&H Medical are the only company in the UK to obtain an NICEIC accreditation within the medical gas industry. This division ensures all electrical wiring installations, testing and commissioning, maintenance and fault-finding are carried out to exact standards. K&H Medical are capable of installing comprehensive medical gas alarm systems for the largest facilities.

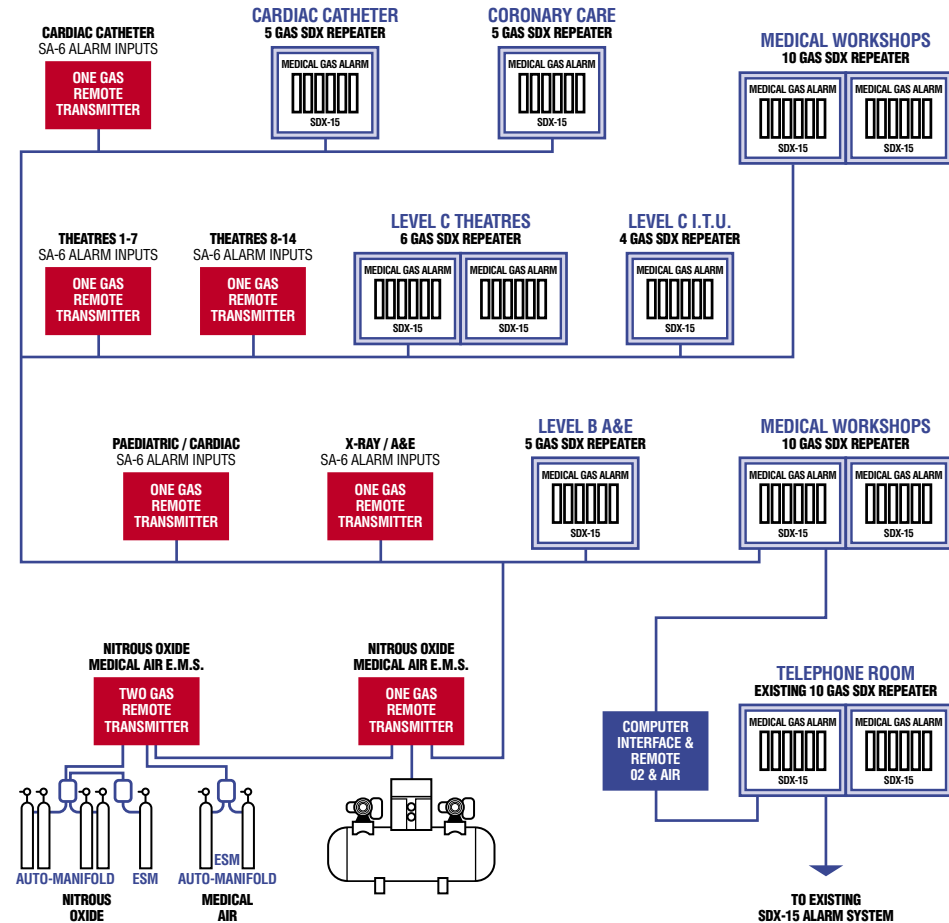

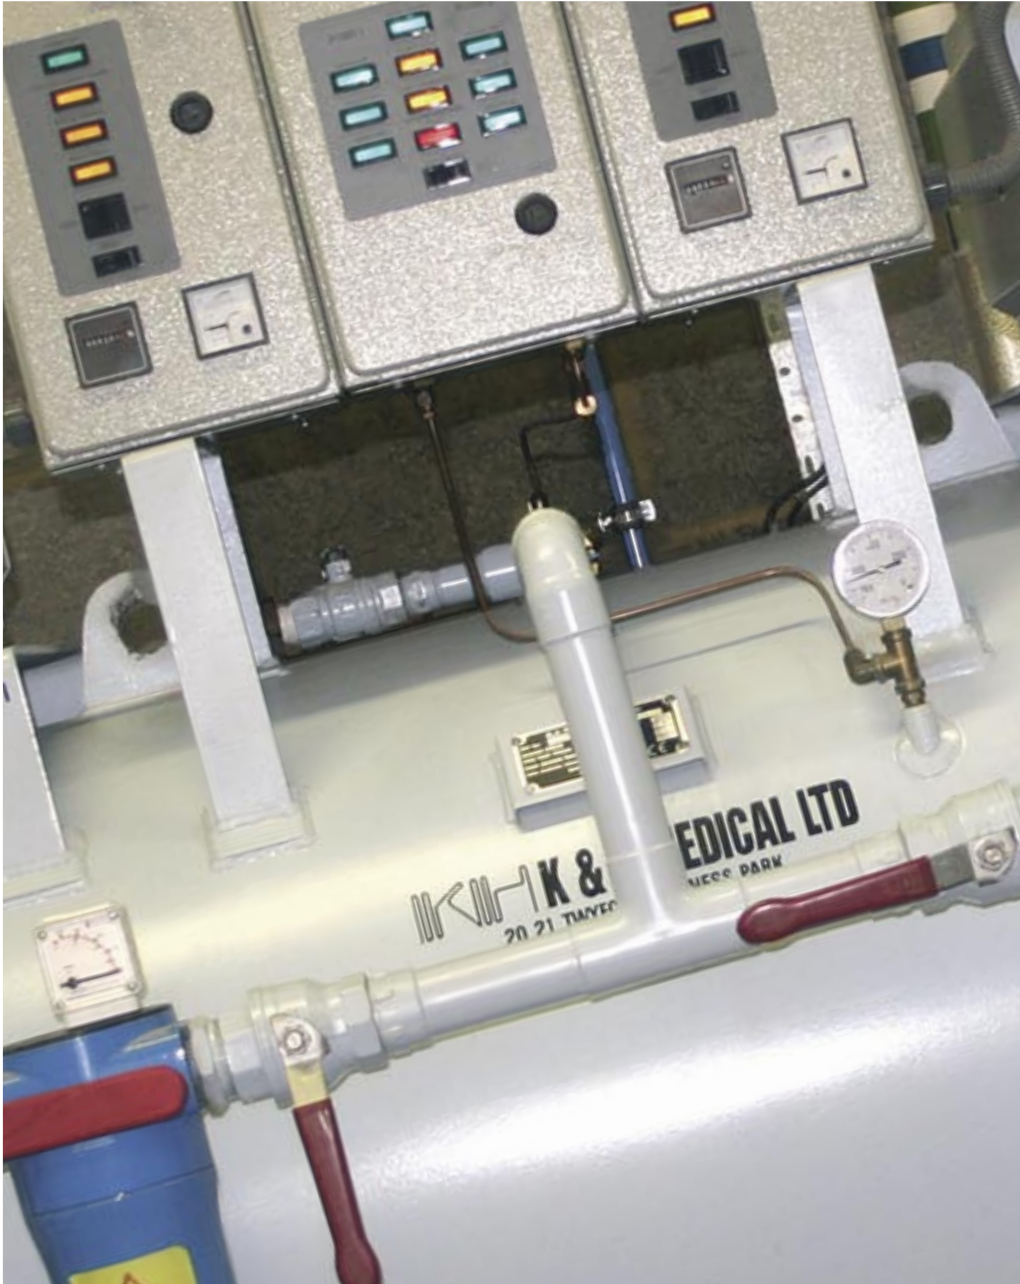

case study: Addenbrookes Hospital

K&H Medical installed a new medical gas alarm system, £25k
The entire job was contracted directly from the trust

PREVENTATIVE MAINTENANCE

We pride ourselves on the strict service maintenance contracts we govern, providing round-the-clock surveillance to give complete peace of mind for all piped medical gases and vacuum systems. This includes constant examination, testing and checking of manifolds, medical gas plants, distribution systems including pipework, valves, terminal units, theatre fittings, booms, pendants and alarm systems.

Our maintenance staff thoroughly examine all equipment every quarter term with a complete report, as well as correcting faults that have occurred. Our call-out response is within four hours of the initial call being received.
